## PURPOSE

---

Building on the success of previous meetings, the Conference will feature invited lectures, debates, poster sessions and oral abstract sessions focusing on topics such as paraneoplastic and immune disorders associated with thymic malignancies, establishment of cell lines from thymic tumors, development of gene signatures to determine prognosis, multimodality treatment of thymoma and thymic carcinoma and emerging drug targets and the role of targeted therapy in the treatment of these cancers.

The Conference will provide the ideal forum to stimulate ideas and establish collaborations as well as to initiate intense discussions about the role of clinical trials, surgery, radiation therapy and other novel approaches for the treatment of thymic cancers. Poster viewing opportunities and interactive oral abstract sessions will foster communications between delegates.

## WHAT IS SO SPECIAL ABOUT ITMIG?

---

Unlike other larger meetings, ITMIG's goal is to facilitate close interaction between sponsors, exhibitors and delegates, and to make it more personable, thereby initiating communication between industry and clinicians/scientists. **We want you to be part of our family.**

ITMIG does not only provide you access to people interested in thymic disease, but to people who are active and KOL in the thoracic space in general. ITMIG is very proud to welcome **a high number of key opinion leaders and people in leadership positions at their institutions** (division chiefs, department chairs, program leaders, etc.) as attendees to their annual meetings and as members within their organization. But it is not only access to people active in their field that you will gain, it is also access to a whole international community and network of such people that in our belief will be beneficial to you far beyond the Conference itself.

Being a fairly small Conference, we are able to provide a more intimate environment that fosters free exchange of ideas and building personal relationships. We strongly encourage all sponsors and exhibitors to attend the presentations as well as networking activities such as the Welcome Reception and the ITMIG Dinner on Friday night. Focus Group Meetings will provide additional opportunities to facilitate interactions.

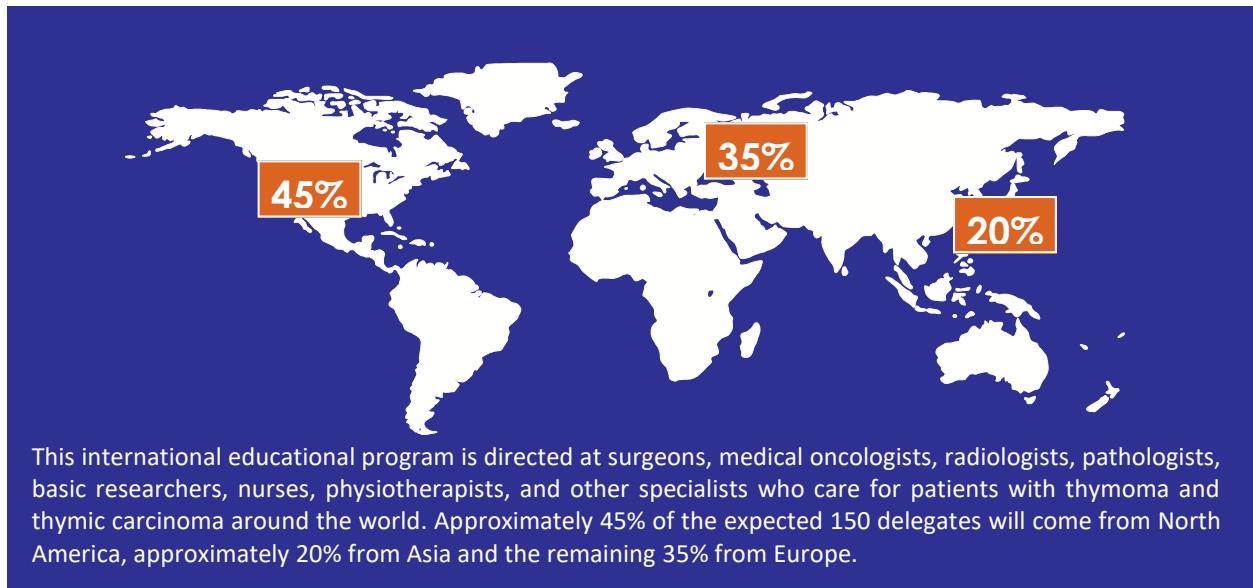

- ★ Access to large number of key opinion leaders and people in leadership positions
- ★ Intimate environment to foster free exchange of ideas and building personal relationship
- ★ Invitation to attend all scientific sessions and networking opportunities like the ITMIG Dinner, Welcome Reception, and Networking Breaks.
